## SUMMARY

Software Developer with **3+ years of experience** developing **Python-based applications, backend services, REST APIs, and enterprise software solutions** across Canadian and international environments. Strong experience with **Python, FastAPI, SQL, REST APIs, Docker, pytest, CI/CD, Git, and cloud platforms**, with hands-on exposure to **AI/LLM application development, RAG pipelines, and intelligent backend workflows**. Experienced in application development, API integration, automated testing, debugging, business logic, production support, and delivering software throughout the **SDLC using Agile/Scrum practices**.

## TECHNICAL SKILLS

**Programming & Application Development:** Python, SQL, Pandas, NumPy, Python Scripting, Object-Oriented Programming, Backend Development, Application Development, Automation, Business Logic

**Backend & API Engineering:** FastAPI, REST APIs, RESTful Services, JSON, API Integration, Request/Response Handling, Authentication, Payload Validation, Exception Handling, Error Handling, API Workflows

**AI / LLM & Generative AI:** LLM Application Development, Generative AI, RAG, Retrieval-Augmented Generation, Prompt Engineering, Embeddings, Vector Search, AI API Integration, AI-Powered Applications

**Databases:** MySQL, SQL Server, PostgreSQL, Relational Databases, SQL Joins, CTEs, Subqueries, Aggregations, Data Transformation, Query Optimization

**Testing & Quality:** pytest, Unit Testing, Integration Testing, Software Testing, Test Automation, UAT, Debugging, Application Troubleshooting, Root-Cause Analysis, Defect Resolution

**Cloud, DevOps & CI/CD:** AWS, Amazon S3, AWS Glue, Google Cloud, BigQuery, Docker, CI/CD, GitHub Actions, Azure DevOps, Build & Deployment Automation

**Software Engineering:** SDLC, Requirements Analysis, Functional Design, User Stories, Acceptance Criteria, Production Support, Technical Documentation, Release Support, Version Control

**Development & Collaboration:** Git, GitHub, Jira, Confluence, Agile, Scrum, Code Reviews, Release Management

## EXPERIENCE
